# LILONGWE CITY COUNCIL SERVICES

## PARKS AND RECREATION DIRECTORATE

Operationally, the Directorate operations are divided into four main divisions that complement one another to achieve the objective of managing the environment of the city as follows:

### **Landscape Construction and Development Division**

The main objective of this division is to develop and maintain the existing landscape features of the city in order to improve and maintain the beauty and outlook of the city of Lilongwe. This involves maintenance and landscaping of roadside verges, parks and recreation areas, roundabouts, road junctions and special public open spaces.

### **Nursery Production and Management Division**

The main objective of this division is to produce and propagate planting materials and seedlings for horticultural and floricultural production which can be used in landscape construction and development and also for sale to the general public. This involves plant seedling propagation, compost manure making, vegetable production, cut flower production and fruit growing.

### **Forestry Maintenance and Management Division**

The main objective of this division is to ensure biodiversity and environmental heritage. This involves nursery production of tree seedlings, afforestation, environmental rehabilitation, tree management and forest protection.

### **Environmental Affairs Division**

The main objective of this division is to promote a safe environment in the city through pollution and environmental degradation monitoring and control. This is done through control and regulating sand and stone mining, control burning of bricks, control illegal fires and tyre burning and identifying pollution sources in the city.
